

BRAINERD DAILY DISPATCH.

JUNE 6, NO. 104.

BRAINERD, MINN., THURSDAY, OCTOBER 4, 1906.

PRICE TWO CENTS

UP THEIR ARMS

AN INSURGENTS EAGER TO
COMPLY WITH DEMAND OF
THE AMERICANS.

PRISES THE GOVERNMENT

ED AND EASE WITH WHICH
DER IS BEING RESTORED IN
ISLAND OF CUBA.

Havana, Oct. 4.—The alacrity with which the rebels are laying down their arms is the greatest surprise the provisional government has encountered in its smoothly working programme. Operation is now well under way in the vicinity of Havana, 700 of the rebels' men, with their horses, have already entrained for Pinar del Rio while one brigade marched to Cajay without a sign of disorder. Hundreds of persons from Havana went out to Santiago de Las Vegas Rincon to view the disarmament. They were disappointed at not seeing the rebels actually surrender their arms, but nevertheless they witnessed an interesting sight.

On a concession the men, General Ladd and Major Ladd permitted the rebels to take their arms to Pinar del Rio where most of the men joined the insurgent army. The rifles, however, were first counted by officers of the army under the direction of Major Ladd, and the men will be required to surrender them before leaving the area at Pinar del Rio.

The marines sent to Pinar del Rio are prepared to enforce order and that the disbanded rebels disarmed quietly. General Guerra had said that 1,000 men would be required for entrainment but the preparation of the muster rolls required so much time as each contains a minute description of every man's horse to prevent substitution, that another special train conveying 400 men and horses will leave Rincon for Pinar del Rio later. The remainder of Guerra's army will be marched to Guanajay and the points in Pinar del Rio province as the muster rolls are prepared.

Very Little Actual Fighting.

According to the testimony of an American, one Harvey, who has been in the insurgent ranks, the amount of actual fighting was small. Harvey said that most of the fighting he saw was between game cocks. About 10 percent of Guerra's men carry fight-cocks tied to their saddles.

It is reported that some of General Castillo's followers are reluctant to disarm, but the brigade commander has informed Major Ladd that the men will disband when ordered to do so by General Del Castillo. General Del Castillo has directed an order to his subordinates telling them to comply with every request of the American officer.

The disarming commission which was sent to Santa Clara province has reached the Cienfuegos district. A dispatch from Cruces reports that the commission received an ovation on the way from Santa Clara.

The revolutionists at various points along the line were willing to disband, giving thoroughly in the honorable intentions of President Roosevelt and Secretary Taft.

The speech delivered by Governor Lora before the University of Havana has been received with great satisfaction by both the revolutionists and government party in Santa Clara province.

Since the cessation of hostilities raiding bands have stolen or destroyed more or less property in Santa Clara province. This week a band attacked the San Nicolas plantation, headed by a captain of the rural guards, and butchered 200 head of cattle.

The motive for this destruction said to have been personal spite.

Distribution of Marines.

In addition to the American marines in Cienfuegos there are detachments of other Santa Clara towns as follows: Cruces 50, Esperanza 25, Santo Domingo 25, Sagua la Grande 50, Palmi 35, and the Hormiguero plantation. Other detachments are guarding American properties in the Manicarra district.

The disarming commission proceeded for Cienfuegos Wednesday afternoon, accompanied by the former rebel leader, General Guzman. Officials of the Cuban Central railroad estimate that the insurgents damaged the road to the extent of \$190,000. Governor Taft has received a dispatch that the threatened disturbances in Cienfuegos have been obviated by the withdrawal of the insurgents from that city.

Governor Taft now occupies the office in which the affairs of Cuba have been administered successively by the

Spanish governors of the island, General Leonard Wood and President Palma. He will take up his residence in the palace in a few days.

The staff of the American commissioners will continue practically without change. Mr. Rockwood, stenographer to Mr. Taft, will act as secretary to the governor.

Colonel E. H. Crowder, judge advocate, said that the continuance of the status of the Cuban republic without change obviates practically every legal

difficulty which might otherwise have been caused by the establishment of a provisional government.

Major Melville reports that 1,000 arms have been quietly turned over to the commission.

TO REMAIN AT HIS POST.

Minister Quesada of Cuba Will Not Resign.

Washington, Oct. 4.—Secretary Root has made public a letter he had written to Gonzales de Quesada, minister of Cuba, in which Mr. Quesada is urged by Secretary Taft and Secretary Root to remain at his post as minister. Mr. Quesada had sent in his resignation upon the downfall of the Palma government. Secretary Root expressed the determination "of Cuba's real friends that all this wretched business will soon be over."

Mr. Quesada, in a letter in reply, undertakes to remain at least temporarily.

Distrust the United States.

Paris, Oct. 4.—A section of the French press persists in expressing distrust of the intentions of the United States in Cuba, insinuating that the declarations to the effect that the United States will not hold the islands belong to the same category as Great Britain's relative to the occupation of Egypt.

TRANSPORT THOMAS ON FIRE.

Only Hope of Saving the Vessel Is in Sinking Her.

Manila, Oct. 4.—The transport Thomas is on fire. The fire originated in the hold, where there are 6,500 bales of hay. The flames have spread to the bunkers. The hold of the vessel has been flooded. It is thought that the only hope of saving the vessel is in sinking her. The water at her dock is shallow.

BUILD BY CONTRACT

CHAIRMAN SHONTS DECIDES TO LET WORK OF CONSTRUCTING THE PANAMA CANAL.

Washington, Oct. 4.—A tentative decision has been reached by Chairman Shonts of the Isthmian canal commission that the Panama canal be built by contract. An announcement of the final determination is expected in a few days.

Chairman Shonts had a long conference Tuesday night with President Roosevelt, at which many matters relating to the canal were considered. The president is anxious that a conclusion be reached on all questions of canal construction as soon as possible so that the actual work of construction may be pressed vigorously.

Chairman Shonts and Chief Engineer Stevens have been working for many weeks on the subject of constructing the great waterway by contract. They have prepared specifications for the work which are being considered before the issuance of invitations for proposals.

In this connection it is understood that the president has not abandoned his contemplated trip to Panama and will not unless the Cuban situation or some other question should become so acute as to require his presence in Washington. Chairman Shonts expects to be in Panama at the time of the president's visit but it is likely that instead of accompanying the president he will go to Panama in advance to superintend arrangements for his reception.

MURDER IN MINNEAPOLIS.

Colored Man Shot Dead in a Saloon by Unknown Person.

Minneapolis, Oct. 4.—While sitting in a saloon owned by Bob Salters, at 229 Second avenue south, shortly after midnight, Roma Shields, colored, was shot from without by an unknown person. Shields died before he reached the hospital. Shields was sitting in the saloon with his back to the screen door when the shot was fired, the bullet passing through the wire netting and entering the skull behind the left ear.

MRS. FRED PABST DEAD.

Widow of Former Head of Pabst Company a Victim of Pneumonia.

Milwaukee, Oct. 4.—Mrs. Fred Pabst, widow of the former head of the Pabst Brewing company and daughter of Jacob Best, founder of the brewery, died at about midnight of pneumonia.

RESULT OF EXPLOSION

UNKNOWN NUMBER OF MINERS
ENTOMBED IN COAL MINES IN
WEST VIRGINIA.

WORK OF RESCUE IS BEGUN

SO FAR ONLY TWO MEN OUT OF
A TOTAL OF AT LEAST SIXTY
HAVE BEEN SAVED.

Bluefield, W. Va., Oct. 4.—As the result of an explosion at the West Fork mines of the Pocahontas Collieries company, where the explosion of 1902 occurred, in which Superintendent O'Malley and sixteen others lost their lives, seventy-five men are supposed to be entombed. Two rescue parties have entered the mines and two men named Dolbert and Godash have been rescued and revived. The mine is reported to be on fire and the work of rescue is retarded. The cause of the explosion is not determined. Great excitement prevails in the neighborhood of the mines. Crowds of men, women and children remain around the drift mouth anxiously awaiting news of relatives and friends.

The explosion took place in what is known as the St. Paul entry of the mine. Reports of the number of entombed men vary from 60 to 100. The lack of brattice cloth helps to retard the rescue work and a carload of it is being hurried on a special train from here. The definite results of the explosion will not be known for perhaps twelve hours.

The force of the explosion was hardly noticeable at the mine's mouth, as the entry in which it occurred is two and a half miles in the mountains. A number of men in the south mine were almost suffocated before they were rescued.

STREET CAR JUMPS THE TRACK.

Three Persons Fatally and Seventeen Others Badly Hurt.

Cleveland, Oct. 4.—Three persons were fatally and seventeen more or less seriously injured late at night when a street car bound for Euclid Beach jumped the track at a sharp curve at the foot of the Nickel Plate railroad trestle north of Windemere. The car was going at high speed and after thumping the ties for twenty feet plunged into the bank and half overturned. About eighty passengers were aboard and panic reigned, the uninjured struggling with the groaning injured to extricate themselves. It is said the accident was caused by the motorman losing control of the car and the brakes refusing to work. Ambulances and carriages conveyed the injured to hospitals and their homes and a number were cared for at nearby houses. The fatally injured are:

Walter Maxwell, twenty-two years old, Euclid, O.; Mrs. Savage, Norwalk, O.; Harvey Bingham, one year old.

Mrs. Van Schrieber of Columbus, Mrs. Grasser of Norwalk, O., and Mrs. Watson of Boston, Mass., were seriously injured.

Young Maxwell was standing on the platform talking to Miss Hazel Hudson, his fiancée, daughter of Dr. Hudson of Nottingham, a suburb of Cleveland, when the accident occurred. They were to have been married Monday.

ONE MORE STORM VICTIM.

Corpse of a Child Is Recovered at Pensacola.

Pensacola, Fla., Oct. 4.—The body of one more storm victim has been recovered. The body is supposed to be that of the child of J. T. Matthews, tender of the Escambia bridge, who lost his wife and two children.

The work of clearing away the wreckage has progressed so far that some semblance of order in the lower portion of the city has been restored and business is assuming normal conditions.

The saloons will be allowed to open under restrictions for the first time in a week. Street cars are operated on the city lines. The revenue cutters Fessier and Winona will make a close inspection of the coast between this port and Mobile. Both vessels have been tendered to the relief committee and will carry provisions to points where settlements have been wiped out and families are known to be destitute. A large quantity of clothing and food has been sent to the destitute at Warrington, on the naval reservation.

Hearst Accepts Nomination.

New York, Oct. 4.—The Independence League, which named William R. Hearst for governor, has received his letter accepting the nomination.

EXCITEMENT IN MOBILE.

Mob Insistent in Its Search for Negro Assaulter.

Mobile, Ala., Oct. 4.—Mobile passed a day of great excitement due to the incidents of Tuesday night, when a mob went to the county jail to get the negro Dick, alias Cornelius, Robinson, charged with assault upon a white girl, and some persons fired guns through the open gate at the jail and killed Special Deputy Roy Hoyle.

This is the second case of the sort, there being another negro in jail in Birmingham, Willie Thompson, who probably would have been lynched here about a month ago had the mob been able to get hold of him.

During the evening another crowd gathered and a committee again visited the jail and reported that the negro was not there. The crowd dispersed. About the same hour the grand jury reported indictments against both negroes and set the trial of Thompson for Wednesday and Robinson for Thursday. This had a calming effect. At 5 o'clock there was another meeting held in Bienville square that was addressed by several citizens, chief among them being Judge O. J. Sommes of this city, before whom the negroes will be tried. It is not believed that there will be further disturbances.

Governor W. D. Jelks has been here all day with the exception of five hours spent in Coden, where he inspected the relief work there for storm sufferers.

A leading negro citizen, James T. Peterson, published an address to the public stating that the best negroes repudiate in the strongest manner the awful crimes committed by members of their race, and that they will do all they can to bring criminals to justice.

Relief funds are coming in from many quarters and are promptly made use of for the relief of the storm sufferers.

The reports first received of damage and loss of life on the lower coast have been more than fulfilled by recent news.

HUGHES ACCEPTS NOMINATION.

Says Vital Issue in New York Is Decent Government.

New York, Oct. 4.—With the declaration that the issue in the forthcoming campaign in this state is not to be one of Republican principles or of Democratic principles, or a partisan issue at all, but the vital issue of decent government, Charles E. Hughes of this city formally accepted the nomination for governor, which was brought to him by a committee from the Republican state convention recently held at Saratoga.

The ceremonies of the notification were held at the Republican club in West Fortieth street and followed a dinner at which Mr. Hughes met the members of the new Republican state central committee who had been in session here. At the dinner were former Governors Odell and Frank S. Black. They were among the first to congratulate Mr. Hughes upon the conclusion of his brief speech.

When the candidate mentioned President Roosevelt his auditors broke into cheering, which continued for some time. When Mr. Hughes characterized the opposition as "a masquerade, an independence league whose independence has been betrayed, and a so-called but spurious Democratic party which has violated every principle of Democratic government," his supporters gave themselves over to an outburst which caused Mr. Hughes' usually serious face to break into smiles.

HOKE SMITH FOR GOVERNOR.

Democratic Ticket in Georgia Elected With Little Opposition.

Atlanta, Ga., Oct. 4.—The regular state election held in Georgia resulted in the practically unanimous election of the Democratic nominees, headed by Hoke Smith for governor. The only opposing ticket was that of the Socialists, headed by J. B. Osborne.

Returns received up to a late hour show that the constitutional amendment providing for a court of appeals was carried, though a large vote was cast against it in some sections. Ballotting all over the state was very light.

Valuable Gems Seized.

New York, Oct. 4.—Three hundred emeralds valued at \$20,000 were found concealed about the person of Manuel Suarez, a Spaniard, who arrived on the steamer Oceanic from Liverpool. He had declared that he brought no dutiable goods. Suarez was arrested and the gems were seized by customs inspectors.

Wine Company's Plant Burned.

St. Catherine's, Ont., Oct. 4.—The Ontario Grape Growing and Wine Manufacturing company's plant two miles west of here, has been destroyed by fire. The vat contained 150,000 gallons of wine. The loss is \$125,000.

POLICE OFFICIAL ARRESTED.

Scotchman Accuses Him of Compounding a Felony.

Salt Lake City, Oct. 4.—Chief of Police George Sheets has been arrested on a complaint by William McWhirter, charging him with compounding a felony. McWhirter is the Scotchman who had \$10,000 taken from him by bogus officers during a raid on a fraudulent poker game. McWhirter forced one of the alleged officers to accompany him to the police station, where he was given back \$1,000, the amount being paid through the chief.

Malt House Burned.

Waterloo, Wis., Oct. 4.—The malt house belonging to the Badger State Malt and Grain company of Chicago has been destroyed by fire. The loss is estimated between \$50,000 and \$60,000.

Photo Engravers Elect Officers.

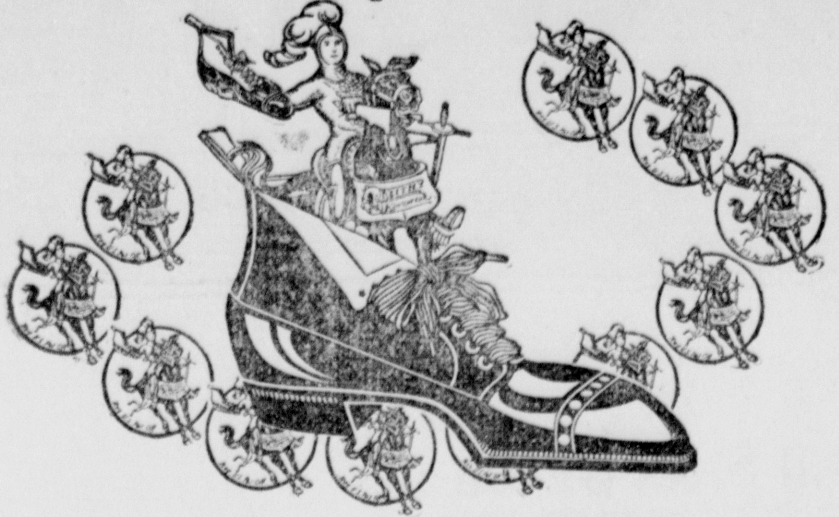

Minneapolis, Oct. 4.—The following officers were elected by the International Photo Engravers' union in annual convention here: President, Mathew Wold, Chicago; vice presidents, L. A. Schwarz, Philadelphia; A. J. Gallagher, San Francisco, and E. G. Rogers, Detroit; secretary-treasurer, H. C. Guldbrandson, Minneapolis.

Opens Campaign in Iowa.

Des Moines, Ia., Oct. 4.—United States Senator Beveridge opened the Republican campaign in Des Moines before a large audience. Senator Beveridge entered into a general defense of Republican administrations and congresses, but he also discussed the Cuban situation.

COLOR COMBINATIONS.

How They Were Cleverly Used In Exposing a Fraud.

In a large factory in which were employed several hundred persons one of the workmen in welding his hammer carelessly allowed it to slip from his hand. It flew halfway across the room and struck a fellow workman in the left eye. The man afterward averred that his eye was blinded by the blow, although a careful examination failed to reveal any injury, there being not a scratch visible.

He brought a suit in the courts for compensation for the loss of half of his eyesight, and refused all offers of compromise. Under the law the owner of the factory was responsible for an injury resulting from an accident of this kind.

The day of the trial arrived, and in open court an eminent oculist, retained by the defense, examined the alleged injured member and gave it as his opinion that it was as good as the right eye.

Upon the plaintiff's loud protest of his inability to see with his left eye the oculist proved him a perjurer and satisfied the court and jury of the falsity of his claim. He did it simply by knowing that the colors green and red combined make black.

He prepared a black card, on which a few words were written in green ink. Then the plaintiff was ordered to put on a pair of spectacles with two different glasses, the one for the right eye being red, and the one for the left eye consisting of ordinary glass. Then the card was handed to him, and he was ordered to read the writing on it through the glasses.

This he did without hesitation, and the cheat was at once exposed. Owing to the effect which the colored glass must have had upon the green writing the sound right eye fitted with the red glass could not possibly distinguish the writing on the black surface of the card, while the left eye, which he pretended was sightless, was the one with which the reading had to be done.—London Standard.

THE SWISS ARMY.

Always Ready For War Service at a Moment's Notice.

The total population of Switzerland is rather less than half the population of London alone, yet the plucky little republic can throw into the field at a moment's notice four completely equipped and trained army corps to Germany's and France's twenty and England's nominal eight. In proportion to her population as compared with Switzerland, England should possess fifty.

Every able-bodied Swiss is, ipso facto, a member of the army from eighteen to forty-four, yet never does one hear the least complaint made by a Swiss of whatever social class at the trifling sacrifice of time that his military duties demand. To watch a Swiss battalion on its way to maneuvers in camp or on its return is to watch as contented, serviceable and cheerful a lot of men as one could wish to meet.

The only serious tax upon the time of the soldiers is the first two months of hard training as a recruit. Afterward sixteen days in camp every other year is all that is required of him. Between whiles he shoots with his comrades—every little village has its shooting range—because he loves it, and devotes a certain amount of time voluntarily to the physical exercises he is taught at school to keep himself fit. On first joining he is carefully examined as regards his suitability for this or that branch of the service and is drafted into that for which he is best fitted, and he invariably takes as great a pride in his regiment, battery or squadron as could any voluntarily enlisted man in our smartest corps at home.

The Swiss army comprises 100 battalions of infantry and twenty-four squadrons of cavalry, with the necessary ordnance and departmental corps, while the artillery includes forty-eight field batteries, ten batteries of position and two excellent mountain batteries.—Pall Mall Gazette.

The most awkward and ungainly woman can be transformed into a beautiful lovely creature if she has the brain power to absorb the fact that Hollister's Rocky Mountain Tea will do the business. Tea or tablets, 35 cents. H. P. Dunn & Co.

No Relative of His.

Duncan, aged two and a half, had been naughty. To punish him his mother tied him in his high chair and kept him there for one hour, by the clock. His father got home before the hour was quite up and asked the youngster why he was tied up.

"Father," replied Duncan, pointing an accusing finger at his mother, "I'm completely surprised at that lady."

The Greater Offense.

Professional Hypnotist—Can I get permission to bury old Joe Soaker alive and dig him up after thirty days? Mayor of Lonelyville—No, ding ye! Ye kin bury him alive if ye want to, but if ye ever dig him up ag'in I'll jug ye!—New York Press.

An Artist.

She—You said you were going to marry an artist, and now you're engaged to a dentist. Flo—Well, isn't he an artist? He draws from real life.

When a man lays the foundation of his own ruin, others will build on it.—Fielding.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Electric Oil. The pain ceased and the child sank into a restful sleep."—Mrs. Nancy M. Hanson, Hamburg, N. Y.

Danger From The Plague.

There's grave danger from the plague of coughs and colds that are so prevalent, unless you take Dr. King's New Discovery for consumption, coughs and colds. Mrs. Geo. Walls, of Forest City, Me., writes: "It's a Godsend to people living in climates where coughs and colds prevail. I find it quickly ends them. It prevents pneumonia, cures La Grippe, gives wonderful relief in asthma and hay fever, and makes weak lungs strong enough to ward off consumption, coughs and colds." 50c and \$1.00. Guaranteed by H. LOOKING AFTER FOREST RESERVE

Members of State Forestry Board of Minnesota were in City This Morning.

THEY GO TO PILLSBURY RESERVE

To Look after White Pine Seedlings set out Last Spring— They Were Imported.

General C. C. Andrews, state forestry commissioner and Prof. Green, of the State University, and Judge Douglas, ex-attorney general, the latter being two of the nine members of the state forestry board were in Brainerd this morning. They were on their way to the Pillsbury forest reserve to look after the white pine seedlings which were set out there this last spring.

As stated in THE DISPATCH at the time of planting, these trees were imported from Germany and cost the state about a half a cent apiece besides the expense of planting. There were 20,000 of these seedlings and the object of the present visit to the reserve is to see how the trees stood transplanting. There is a nursery at the Pillsbury forest reserve which contains 700,000 spruce seedlings which will be three years old next spring and must be transplanted then to be of any value. The forestry board hopes to induce the legislature this winter to make provision for this and other necessary work.

Besides the Pillsbury reserve, which contains 1,000 acres and is under the charge of Lars M. Hope, there is a tract near Fond du Lac which contains 20,000 acres. An estimate of the young trees on this tract last spring satisfied Prof. Green that at the present price of lumber the young trees now started on that reserve would be worth \$240 per acre.

To the Public.

Brainerd, Minn., Oct. 4th, 1906.
EDITOR BRAINERD DISPATCH:

Kindly allow me through the columns of your valued paper to publicly express my appreciation of the many good wishes, expressions of confidence in me and promise of support given me by the great number of friends from all parts of the county, who before the primaries urged me to file for the office of county attorney as well as to the large number, who after the primaries by written request urged me to offer myself as independent candidate for the office.

I believe that the wishes of the public in matters political should be duly respected and I would have filed as a candidate for county attorney before the primary election but for two reasons:

In the first place the duties of the county attorneyship would have materially interfered with my private practice of law and I would have been unable to care for the interests of my clients, and in the second place there were a great many citizens of Brainerd who also urged upon me to offer myself as a candidate for the office of municipal judge of the city of Brainerd, and after careful thought, I came to the conclusion that in the capacity of municipal judge I could render the people of the city more valuable service than as county attorney and at the same time the holding of that office would not materially interfere with my private law practice.

I am therefore a candidate for the office of municipal judge in, and for, the City of Brainerd, and all friendly support for that office will be greatly appreciated.

Sincerely yours,
A. T. LARSON.

POLITICAL POINTERS

Interest now Centers on City Convention.

Democratic and Republican Dates

Having Been Decided On

The republican city convention will be held on Oct. 25th, the caucuses being called for the evening before.

The democrats will hold their caucuses on the evening of Oct. 25th and will hold their city convention the day following.

There are two avowed candidates for city treasurer, Judd Wright, the present incumbent, will come up for nomination at the city convention, and C. C. Kyle will try conclusions with him for the place.

C. A. Allbright is a candidate for the municipal judgeship before the republican city convention. A. T. Larson has announced that he will try for the same office.

Chas. Krech, the republican nominee for commissioner in the Second district, will have opposition at the election but as Charley likes a scrap he is planning on a good time from now until the polls close on Nov. 6th. J. S. Gardner the present commissioner, is out with a petition and will run as an independent candidate and in order to make it interesting D. C. Henderson, of Smiley, has also concluded to run on an independent nomination and is out with a leaflet explaining his position and a petition for signatures.

W. D. McKay, who will run independent for the office of auditor, is out with his petition and has it nearly completed.

N. N. Berghelm, democratic candidate for the legislature from this district, is distributing his cards with a picture of himself on. The gentleman has forgotten to designate his political affiliation and merely comes before the people as "a candidate for representative" on his printed matter. Possibly it is not popular to let the public know that one is a democratic nominee in a city the size of Brainerd where less than a dozen democratic votes were cast at the recent primary election.

The Little Falls Transcript says that M. C. Tift believes he could be elected to congress if he could secure the votes of those who supported Buckman. If Mr. Tift is banking on getting Buckman votes to bolster up his campaign he might as well withdraw from the race as far as the election is concerned. Mr. Lundbergh will receive the solid vote of the republicans of the Sixth district, the Buckman-Lundbergh contest is over and the party is united on its nominee.

Frank Lardie's Running Horse Also Galloped Away with The First Money

Brainerd men took some of the best prizes at the Pine River Fair this week. Archie Purdy's handsome black team was awarded the first prize as a matched driving team and Frank Lardie of this city carried off the first money with his running horse. Those from here who attended the fair say that Pine River did herself proud in her efforts to entertain the visitors, and the exhibits are reported as good.

AMUSEMENTS

Faust Is Coming

No play ever in our city has met with such universal approval as this grand masterpiece of Goethe, the German Shakespeare, and no portrayal of that weird Satanic Mephisto is so indelibly stamped upon the minds of an audience who witnesses the part taken by Frederick J. Wilson, and his visit to the city with the For. J. White Co., do be its former size, of unsurpassing magnificence, with the grandest electrical and mechanical effects ever shown with a "Faust" production in any city. This is the only Faust company that absolute-

The Detroit Free Press of recent date says that the beautiful rendition of the Drinking Chorus in the grand opera, "Faust," by this magnificent quartette, was the most impressive of anything ever heard of that nature in Detroit. Will appear here on Monday, Oct. 8th, at the opera house. Popular prices.

"The Umpire"

In "The Umpire" the first musical comedy of the year and the best the season is likely to afford theatregoers of this city, there is an up-to-date tale of love and intrigue wherein the dramatic values are nicely worked out with ramifications, which include the national games, baseball and football, the national vice "graft" and other ultra-modern themes. And added to these elementary virtues are music, which according to the judgment of metropolitan

critics is not excelled in musical comedy for sweetness and catchiness. "The Umpire" will be the attraction at the Brainerd opera house, Wednesday, Oct. 10th. Fred Mace is the featured member of the cast supported by a strong metropolitan company and then there is the famous broilers and a chorus of fifty of the prettiest girls before the footlights.

J. F. SMART,

the nominee for Auditor, is a native Gopher, having been born in Benton county, near the mouth of Platte river, Feb. 13, 1872. His boyhood was spent on the homestead in Sterns county, and after the common school he received a three-year course at the St. Cloud Normal school, finishing with two years at the University of Minnesota, specializing in history, languages and political science. He taught school at intervals during his collegiate course to help defray expenses, and later was employed two years as a clerk and bookkeeper.

He first set foot in Crow Wing county some twenty years ago, being employed with another lad driving cattle from Benton county for the Brainerd markets. For the last eight years he and his brother, W. E. Smart, have been associated together opening up and operating a farm in Long Lake township and they have demonstrated that small farming may be carried on (to advantage) in Crow Wing county, even with little or no capital.

At school Mr. Smart was always counted a painstaking and diligent student; was popular among his fellows, and ranked among the highest of his class. His friends feel that he is a man to be trusted, and they believe he is well fitted by education and training to make a careful and capable public official.

Mr. Smart says that the pleasantest thing about his campaigning is the fact that his neighbors have always stuck to him. In every campaign he has received two thirds of his own town and also two thirds of his entire commissioner district. He still maintains that Long Lake township is the best in the county; has the most people; the most acres under cultivation; the most school houses, and the most babies.

With the exception of his campaigns for auditor, Mr. Smart has never sought public office, but he has always been the foremost in furthering the welfare of his neighborhood, and has officiated in several minor capacities.

For the past year or more he has been doing the work as secretary of the Long Lake Farmer's Insurance company and has labored successfully to bring the association onto a substantial basis.

STARVING IN RUSSIA

MILLIONS OF PEOPLE IN THE VOLGA DISTRICT WITHOUT ENOUGH FOOD.

SEVERAL CASES OF ROBBERY

BOLD ATTACK MADE ON CASHIER OF BRANCH CUSTOMHOUSE AT ST. PETERSBURG.

St. Petersburg, Oct. 4.—An investigation made in the Volga district has established the fact that fearful misery and starvation exist there. Several millions of persons are in a state of semi-starvation and have no means for procuring food. Diseases such as typhus fever are widespread and peasant disorders have occurred in many districts.

There was practically an epidemic Wednesday of attacks on government cashiers and officials, it being pay day for government employees. There were four such attacks close to Tiflis.

A bold attack made by a number of revolutionists on the cashier of the branch customhouse here was frustrated by the quick action of the police, who captured several of the attacking party after a fusillade, during which one man was killed.

The firing occurred at the bourse end of the palace bridge, one of the most frequented thoroughfares in the city, situated hardly 100 yards from the winter palace and the admiralty.

The affair caused great excitement among the operators on the bourse and the general public.

The cashier was returning in a carriage from the treasury with over \$10,000 for the payment of the salaries of the customs employees when two armed men with revolvers sprang at the horse's head and seven others surrounded the vehicle and covered the cashier with their revolvers. The police apparently had advance information of the plot, for they immediately surrounded and opened fire on the revolutionists, who answered the fire and attempted to flee, but ran into the arms of a squad of plain clothes policemen. One of the revolutionists was killed and five were arrested, three of them being students in uniform. Three men escaped. The man killed was a mere youth.

RENOUNCE THE MANIFESTO.

Viborg Declaration Turned Down by Constitutional Democrats.

St. Petersburg, Oct. 4.—The renunciation of the Viborg manifesto, with its appeals for the nonpayment of taxes and the refusal to perform military service, as a campaign document in the coming elections, and the adoption of a more constitutional line of campaign, appears to be the programme for Sunday's congress of Constitutional Democrats at Helsingfors. A majority of the central committee is convinced that it would be inexpedient to enter the battle under a revolutionary standard. The proposed platform, a plank of which, it is understood, has been drafted by Professor Minkoff, will declare that while the Viborg manifesto was a correct measure at the time of its adoption, it would now be inopportune to press its recommendations. The belligerents, and among them Prince Dolgoroukoff, are inclined to fight for a flat reaffirmation of the manifesto, but the conservatives are confident of carrying the day.

The convention will be held behind closed doors and the press will be excluded in deference to the Finns, who do not desire that the convention be given great prominence on account of their friendly relations with the government.

Casualty List at Warsaw.

Warsaw, Oct. 4.—An official report of the casualties here for the past four months shows: Police and soldiers killed, 32; wounded, 107; citizens killed, 132; wounded, 389.

HILL CONTROLS ROADS.

Great Northern Magnate Gets Two Valuable Lines.

Milwaukee, Oct. 4.—Concerning the Wisconsin Central railway the Journal says following the resignation of Chairman Bull of the Wisconsin Central board and the succession of George M. Cumming, together with the passing of control to a new syndicate composed of Messrs. Bradford, Cumming, Fernald and Chadbourne, interest centered in possible further changes of control.

Rumor has the Wisconsin Central in a combination with the Milwaukee Southern and the Chicago-Indiana road of John R. Walsh, which was recently sold to James J. Hill, and eventually the three roads will be turned over to Mr. Hill.

The Milwaukee Southern taps every trunk line entering Chicago, north and south. The Walsh road does the same for every road running east and west.

Earthquake at Nanaimo.

Vancouver, B. C., Oct. 4.—Nanaimo, on Vancouver island, experienced a slight earthquake shock at 12:35 a. m. The tremor lasted two seconds and was distinctly felt. Reports from Northfield say the shock was heavier there. No damage was done.

BANK ROBBED IN DAYLIGHT.

Manager and Clerk Beaten and Five Thousand Dollars Taken.

San Francisco, Oct. 4.—Two robbers entered the Kimmion Ginko, a Japanese bank, also known as the Golden Gate bank, at 1588 O'Farrell street at noon and after fatally beating S. Urakata, the manager of the bank, and seriously injuring A. Sasaki, a clerk, with a piece of gas pipe, escaped with \$5,000 in gold. Manager Urakata died two hours later from his injuries. Urakata was acting teller.

After striking down their victims, the robbers dragged them to a poorly lighted room in the rear of the bank. The unconscious men were found lying in a pool of blood and near by was a piece of gas pipe, a foot in length.

Chief of Police Olin detailed on the case every available detective and policeman. He advanced the theory that the robbers are the same men who recently killed Pätzner and Friede, merchants, in their store.

WINS CHALLENGE SHIELD.

Rifle Team of New York Guard Regiment Defeats Britishers.

Creedmore, L. I., Oct. 4.—The silver challenge shield donated by Colonel Sir Howard Vincent, aide-de-camp to King Edward VII. of England, will remain on this side of the Atlantic for two or perhaps three years. The rifle shooting team of the Seventh regiment, New York national guard, won the trophy in decisive fashion from the Queen's Westminster volunteers of London, whom they defeated by sixty points.

The total scores of each team were: Seventh regiment, 1,648; Queen's Westminster volunteers, 1,588.

Last year at Bilsley, Eng., the British team won by ten points.

Wins Kentucky Futurity.

Lexington, Ky., Oct. 4.—Silko, the bay son of Moko and Silikon, won the \$14,000 Kentucky futurity at the Kentucky Horse Breeders' association track. W. H. (Knapsack) McCarthy who drove Silko, was badly injured in the third heat, when The Abbe stepped into Silko's wheel. Silko tripped, throwing McCarthy on the track beneath the hoofs of The Abbe.

Seven Miners Perish.

Chihuahua, Mex., Oct. 4.—By what is reported to have been an intentional firing of the timbers of the Buena Tierra mine in the Santa Eulalia district seven men lost their lives. The authorities have instituted an investigation.

TELEGRAPHIC BREVITIES.

Mrs. Thomas Reynolds, twenty-four years old, ended her life with a revolver at St. Paul while suffering from melancholia.

The Horse Race Incident Is by Long Odds the Least of It.

It is a matter of twenty odd miles from London to Epsom, in whose vicinity the historic race course lies, and samples of almost every curious thing there is in old England are to be seen along the various roadways. If there were but one road to Epsom, half of the procession that starts from London on the morning of Derby day would be left struggling in the outskirts of the city long after the great race had been run. But there are many, though none too many, since each is packed to the point of discomfort from early dawn until far into the night.

The Derby is a thing for the foreigner to see once and ever afterward to hold in grateful memory, because it is an experience that could never repeat itself to the satisfaction of the mere onlooker. Primarily it is, of course, a horse race, but the race, which occupies such a fleeting breath of time, is by long odds the least of it. Otherwise it is an expression of Britishism such as may not be witnessed upon any other occasion. It is the one day in the year, I believe, on which English society levels itself out upon the first principle of the brotherhood of man. "Rich man, poor man, beggar man, thief, doctor, lawyer, merchant, chief," without distinction and with perfect camaraderie, come together with the evident if unconscious purpose of proving that to be merely British is all that any true Briton can reasonably desire.

The foreigners are the only spectators. Everybody else is "in the cast," as it were, and it is difficult to judge whether the king, with his nobles and their bevy of brilliantly attired ladies, or the coarser in his donkey cart, with "the missus and the kids," is the leading actor. Perhaps it would be better to call it a variety show and to decide that each in his "turn" is a star in his own particular performance.—Leslie's Weekly.
